With over 5 years of design experience and 3+ years in web development, I bring a unique blend of visual and technical skills to every project. I specialize in graphic design, motion graphics, and UI/UX, creating modern and user-friendly websites.

I've strong skills in HTML, CSS, JavaScript, React, Next.js, and other front-end technologies. Whether working independently or collaborating with agencies, I'm committed to delivering exceptional results, no matter the scale or complexity of the project.
